#### Chartered Professional Accountants

### INDEPENDENT AUDITOR'S REPORT

To the Directors of The Clean Nova Scotia Foundation

#### Qualified Opinion

We have audited the non-consolidated financial statements of The Clean Nova Scotia Foundation (the "Foundation"), which comprise the non-consolidated statement of financial position as at March 31, 2022, and the non-consolidated statements of revenues and expenditures, changes in net assets and cash flows for the year then ended, and notes to the non-consolidated financial statements, including a summary of significant accounting policies.

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion section of our report, the accompanying non-consolidated financial statements present fairly, in all material respects, the financial position of the Foundation as at March 31, 2022, and the results of its operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-forprofit organizations.

#### Basis for Qualified Opinion

In common with many charitable organizations, the Foundation derives revenue from donations, the completeness of which is not susceptible to satisfactory audit verification. Accordingly, our verification of these revenues was limited to the amounts recorded in the records of the Foundation and we were not able to determine whether any adjustments might be necessary to donation revenue, excess of revenues over expenditures, and cash flows from operations for the years ended March 31, 2022 and 2021, current assets as at March 31, 2022 and 2021, and net assets as at April 1 and March 31 for both the 2022 and 2021 years. Our audit opinion on the financial statements for the year ended March 31, 2021 was modified accordingly because of the possible effects of this limitation in scope.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Non-consolidated Financial Statements section of our report. We are independent of the Foundation in accordance with the ethical requirements that are relevant to our audit of the non-consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with those requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Responsibilities of Management and Those Charged with Governance for the Non-consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the non-consolidated financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of nonconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditor's Report to the Directors of The Clean Nova Scotia Foundation (continued)

In preparing the non-consolidated financial statements, management is responsible for assessing the Foundation's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the Foundation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Foundation's financial reporting process.

Auditor's Responsibilities for the Audit of the Non-consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the non-consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these non-consolidated financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the non-consolidated financial statements,
  whether due to fraud or error, design and perform audit procedures responsive to those risks, and
  obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of
  not detecting a material misstatement resulting from fraud is higher than for one resulting from error,
  as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of
  internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Foundation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Foundation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the non-consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Foundation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the non-consolidated financial statements, including the disclosures, and whether the non-consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### Notes to Non-Consolidated Financial Statements

Year Ended March 31, 2022

#### 1. NATURE OF OPERATIONS

The Clean Nova Scotia Foundation (the "Foundation") was established by statute of the Nova Scotian Legislature: the Clean Nova Scotia Foundation Act. 1988. c. 7, s. 1. The Foundation is a Canadian Registered Charity under the Income Tax Act, registration number 11922-7684, and as such is exempt from paying income taxes.

#### Our Mission:

We provide individuals and communities with the means, knowledge, and opportunity to make responsible environmental choices.

#### Our Vision:

To cultivate a sustainable society by delivering innovative, effective and education programs that result in meaningful environmental change.

#### Our Values:

Achieving our mission and attaining our vision depends on the efforts of hundreds of employees, volunteers, and community partners. Some of us make our contribution by engaging directly in delivery programs; others, by supporting and enabling those core activities in essential ways. Whatever our individual roles, and wherever we work within the Foundation, we owe it to one another to uphold certain basic values of the community. These include:

- We are honest with our partners, the public and with each other.
- We innovate and develop programs through the talents and creative ideas of each employee.
- We value teamwork; we foster collaboration.
- We treat each other with respect.
- We deliver the best outcomes and highest quality service through the dedicated effort of every team member.
- We value a fun working environment.

The more we embrace these values in our daily lives, the more we create and sustain a culture of trust, cooperation, innovation and mutual understanding and advance a commitment to the environment and our communities, which all of us share.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

#### Basis of presentation

The non-consolidated financial statements were prepared in accordance with Canadian accounting standards for not-for-profit organizations (ASNPO).

#### Financial instruments

Financial instruments are recorded at fair value when acquired or issued, except for transactions with related parties which are recorded at the exchange amount. In subsequent periods, financial assets with actively traded markets are reported at fair value, with any unrealized gains and losses reported in income. All other financial instruments are reported at amortized cost, and tested for impairment at each reporting date. Transaction costs on the acquisition, sale, or issue of financial instruments are expensed when incurred.

# Notes to Non-Consolidated Financial Statements

Year Ended March 31, 2022

#### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Cash and cash equivalents

Cash and cash equivalents consists of cash on hand, Canadian dollar denominated deposits held in Canadian financial institutions in chequing and guaranteed principal money market accounts, Canadian guaranteed investment certificates and the current portion of investments which will come due within the next fiscal period. Interest income accruing on deposits is recorded in interest income on an accrual basis.

#### Investments

Investments are secondary market Canadian guaranteed investment certificates, where the Foundation has the intention and the ability to hold the certificates until their maturity date. Maturity dates vary, but do not extend beyond five years. These investments are initially recorded at fair value and are subsequently measured at amortized cost using the effective interest method. Interest income and amortization of premiums and discounts are recorded in interest income.

#### Accounts receivable

Accounts receivable are recorded at amortized cost.

#### Investments in 3326481 Nova Scotia Limited

The Foundation's investment in 3326481 Nova Scotia Limited is accounted for by the cost method. The Foundation owns 100% of the outstanding voting shares of 3326481 Nova Scotia Limited.

#### Revenue recognition

The Clean Nova Scotia Foundation follows the deferral method of accounting for contributions, which includes donations and government grants.

The Foundation receives donations and grants from a number of different sources to cover operating, research, and capital expenditures. The operating portion of the contributions are recorded as revenue in the period to which they relate. The capital portions of the contributions are recorded as deferred contributions and amortized into revenue at a rate corresponding with the amortization rate for the related capital assets. When a portion of a contribution relates to a future period, it is deferred and recognized in the subsequent period.

Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Externally restricted contributions are recognized as revenue in the year in which the related expenses are recognized.

Service contract revenue is generally recognized according to the percentage of completion method, based primarily on contract cost incurred to date compared to total estimated contract costs. Changes to total estimated contract costs or losses, if any, are recognized in the period in which they are determined. Pre-contract costs are expensed as incurred. Revenue recognized in excess of amounts billed is classified as current assets under account revenue. Amounts billed to clients in excess of revenue recognized to date are classified as current liability under deferred revenue. The Foundation anticipates that the majority of incurred costs associated with contract work in process will be billed and collected in the following fiscal year.

#### Notes to Non-Consolidated Financial Statements

Year Ended March 31, 2022

#### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Capital assets

Purchased capital assets are stated at cost. Donated capital assets are recorded at fair value at the date of acquisition. Repairs and maintenance costs are charged to expenditures. Betterments, which extend the estimated useful life of an asset, are capitalized.

The carrying value of capital assets is reviewed each reporting period to determine whether there is any indication of impairment. Whenever events or changes in circumstances indicate a capital asset no longer has long term service potential to the Foundation, the excess of its net carrying amount over any residual value would be recognized as an expense. Such a write down is not reversed if the service potential subsequently improves. The assessment of fair values requires the use of estimates and assumptions for discount rates, future capital requirements and operating performance. Changes in any of the assumptions of estimates used in determining the fair value of the assets could impact the impairment analysis.

Capital assets are amortized based on their useful life using the following rates and methods:

Buildings	6%	declining balance
Motor vehicles	30%	declining balance
Furniture and equipment	20%	declining balance
Paving	20%	declining balance
Computer and network hardware	3 years	straight-line
Leasehold improvements	term of the lease	straight-line method
ERP system	5 years	straight-line
Developed software	3 years	straight-line

A half year's amortization is taken in the year of acquisition. Amortization to the nearest whole month is taken in the year of disposal.

#### Impairment of long-lived assets

The Foundation tests for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. Recoverability is assessed by comparing the carrying amount to the projected future net cash flows the long-lived assets are expected to generate through their direct use and eventual disposition. When a test for impairment indicates that the carrying amount of an asset is not recoverable, an impairment loss is recognized to the extent the carrying value exceeds its fair value.

#### Contributed services

The fair value of contributed services cannot be reasonably determined and are therefore not reflected in these financial statements.

#### Accounts payable and accrued liabilities and deferred revenue

Accounts payable and accrued liabilities and deferred revenue are recorded at amortized cost.

# Notes to Non-Consolidated Financial Statements Year Ended March 31, 2022

#### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Measurement uncertainty

The preparation of financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Such estimates are periodically reviewed and any adjustments necessary are reported in earnings in the period in which they become known. Actual results could differ from these estimates. The areas that are most subject to estimation and judgement include the useful lives of capital assets, accrued liabilities, and allowance for doubtful accounts.

#### Government assistance

Government assistance related to future expenditures is recorded as deferred government assistance and is amortized to income as eligible expenditures are incurred. Government assistance for current expenses is recorded as other income.

#### Government grants

Government grants are recorded when there is a reasonable assurance that the Foundation has complied with and will continue to comply with, all the necessary conditions to obtain the grants.

#### Fund accounting

Internally restricted funds presented in the Statement of Changes in Net Assets are used for specific initiatives as approved by the Board of Directors and are described below:

- The Operating Reserve Fund is a designated fund that is intended to provide an internal source of funds for situations such as an increase in expenditures, one-time unbudgeted expenditures, and unanticipated losses in funding, or uninsured losses. The Board has approved transfers of unrestricted remaining surplus annually into this fund. For 2022, the Board has waived this transfer.
- The Building & Capital Asset Fund is intended to provide a ready source of funds for repair or acquisition of buildings, leaseholds, furnitures, fixtures, and equipment necessary for the effective operation of the Foundation. The Board has approved transfers of 10% of depreciation to a maximum of \$50,000 annually into this fund. For 2022, the Board has waived this transfer.
- The Opportunity Reserve Fund is intended to provide funds to meet special targets of opportunity or need that further the mission of the Foundation which may or may not have specific expectation of incremental or long-term increased income. This fund is an intended source of internal funds for organizational capacity building such as staff development, research and development, or investment in infrastructure that will build long-term capacity. The Board has approved transfers of 10% of operating surplus annually into this fund. For 2022, the Board has waived this transfer.

## Notes to Non-Consolidated Financial Statements

Year Ended March 31, 2022

#### 3. FINANCIAL INSTRUMENTS

The Foundation is exposed to various risks through its financial instruments and has a comprehensive risk management framework to monitor, evaluate and manage these risks. The Foundation's financial instruments consists of the following: cash and cash equivalents, accounts receivable, promissory note receivable, investment in 3326481 Nova Scotia Limited, and accounts payable and accrued liabilities. The following analysis provides information about the Foundation's risk exposure and concentration as of March 31, 2022.

#### Credit risk

Credit risk arises from the potential that a counter party will fail to perform its obligations. The Foundation's principal financial assets are cash, investments, and accounts receivable, which are subject to credit risk. Cash and investment-related credit exposure is minimized by dealing mostly with credit-worthy counterparties such as highly rated financial institutions. The Foundation is exposed to credit risk from customers with respect to accounts receivable. Management believes that accounts receivable-related credit risk is minimized by the credit-worthiness of the Foundation's principal clients being government or government-regulated entities.

#### Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Foundation is exposed to this risk mainly in respect of its receipt of funds from its customers and accounts payable and accrued liabilities. The Foundation monitors its cash balances generated from operations to meet its requirements.

#### Fair value

The fair value of marketable investments, accounts receivable, contract work in process, accounts payable and accrued liabilities approximates their carrying values due to their short maturity.

#### Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. The Foundation is mainly exposed to interest rate risk.

#### Interest rate risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. In seeking to minimize the risks from interest rate fluctuations, the Foundation manages exposure through its normal operating and financing activities. The Foundation is exposed to interest rate risk primarily through its guaranteed investment certificates.

#### 13. COVID-19

Beginning in March 2020 the Governments of Canada and Nova Scotia, as well as foreign governments instituted emergency measures as a result of the COVID-19 virus. The virus has had a major impact on Canadian and international securities and currency markets and consumer activity which may impact the Foundation's financial position, its results of operations and its cash flows significantly. As these are on-going events, these financial statements do not reflect any potential future impact. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Foundation as at the report date.
